

Agenda

Day 1 – October 27th

XVIII Edition
Navigating the Maze

TECHNIQUES AND OUTCOMES OF ATRIAL FIBRILLATION ABLATION

Surgical Concomitant AF

08h30 How Much AF Begets HF

09h00 Nuclear Anatomy

09h30 Clinical Evidence: From PVI to MAZE IV. Review of Current Surgical Options

10h00 Break

10h20 Video Case: MAZE IV

10h35 Video Case: Minimal Invasive AF Concomitant Ablation

10h50 Incidence and Management of Post MAZE IV Recurrences

11h10 Case-Based Roundtable

12h15 Lunch

Hybrid AF™ Therapies

13h15 Epicardial-Endocardial Dissociation

13h35 Targeting AF Ablation Strategies

14h25 The Hybrid Options: Anatomical Versus Electrophysiological Approaches

14h45 Totally Thoracoscopic AF Ablation

15h05 Break

15h20 Clinical Evidence of Hybrid AF™ Therapies

15h35 Hybrid AF Ablation and Quality of Life Outcomes

15h55 Video Case: Hybrid Convergent + LAA Exclusion From Left Side

16h05 Anticipating Complications in Hybrid AF™ Therapies

16h30 Case-Based Roundtable

17h30 Finish

Agenda

Day 2 – October 28th

XVIII Edition
Navigating the Maze

TECHNIQUES AND OUTCOMES OF ATRIAL FIBRILLATION ABLATION

LAA Exclusion

09h00 Clinical Management of Stroke and Bleeding Scoring Systems

09h30 AF, LAA and Its Neurological Implications

09h55 LAA and Hypertension: Where Are We?

10h10 Excluding the Appendage: Evidence in ALL Surgical Patients

10h35 Break

10h50 Video Case: RoboClip

11h00 Video Case: MIS Right Side

11h10 Video Case: TT Left Side

11h20 Video Case: Ministernotomy AtriClip FlexV

11h30 Case-Based Roundtable

12h30 Finish
